We would like to make best use of our existing shed structure 12.2' by 7.4'. The shed is out of sight from the street view, is located in a fenced area in the rear of the house, is structurally sound from strong winds , heavy snow, and predators, and connected to electricity for lights, fans, and heating coils to best meet the health and comfort needs of the hens. Thank you for your review.

Hens pending are either:

(1) Four Cornish Hens (female) from Asha Sanctuary in NY. They are listed as sweet, gentle, and lap friendly.

—or— (2) Three Delaware hens(female) need to be rehomed from Ohio, also listed as sweet and friendly.

Picture of shed as of June 2016.
