

Detailed Description of Project:

Installation of Chicken Coop and temporary seasonal run for three (3) heritage bantam hen chickens (smaller than average domesticated chickens) for personal use of egg production. Coop pre-fabricated and purchased at Tractor Supply – see attached specifications.

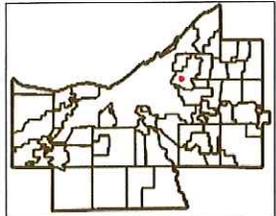

Coop is of a small cottage design, rated for the housing of up to six hens, thereby more than satisfying space needs for the three hens currently residing in said coop.

Coop and adjoining seasonal run to be placed at 15.01 ft from western adjacent lot, 11.21 feet and 11.82 feet respectively from neighboring northern lot. Property is a corner lot and has no other adjoining relevant property lines for purposes of this project.

Please see attached scale drawing for placement per zoning code 1153.
