*The City expects the house currently on this property to be vacant and demolished by the end of the year.					
**May be retained for “green space” as part of the Compton Road Greenway Study.					

This Request for Qualifications and Preliminary Development Proposals (“RFQ/RFP”) provides details about these lots and the surrounding neighborhoods, establishes the redevelopment goals of the City, and outlines the information required from interested development partners, as well as the process by which a development partner will be selected. **Qualifications and supporting materials must be received no later than Friday, December 11, 2020, by 4:00 pm EST.**

In the interest of efficiency, rather than undertaking separate Request for Qualifications (“RFQ”) and Request for Proposals (“RFP”) processes, the City wishes to use this single process, which is a hybrid between a true RFQ and an RFP, to understand each developer’s or team’s qualifications as well as their proposed vision(s) for in-fill housing and redevelopment potential in the neighborhoods noted above. Through this process, the City seeks to identify and select a developer with whom to work collaboratively with to select housing types and designs, and establish development standards / guidelines, for each street and implement the final redevelopment concept. As input from the City and the public is

crucial to, and expected to shape, the final development plan, the City does not require that conceptual drawings or renderings be submitted at this time. However, such drawings and/or renderings of proposed housing types and designs will be accepted and considered as part of this RFQ/RFP process.

At the conclusion of the evaluation process, the City anticipates entering into a Memorandum of Understanding (MOU) followed by a Development Agreement with the selected development partner that will outline the roles and responsibilities of each party and establish timelines for completing the development of infill housing. Upon commencement of this redevelopment, the City envisions consideration of several site control options such as selling the lots to be redeveloped to the selected developer, entering into a long-term ground lease, or other arrangements to be negotiated with the developer.

B. DEVELOPMENT GOALS

The City seeks to develop the Site in a way which, at a minimum:

1. Results in housing designs and types that complement and are harmonious with the other houses on these streets and the adjacent residential neighborhoods;
2. Creates positive economic and fiscal benefits for the neighborhood and the City;
3. Incorporates greenspace, and/or a strong landscaping plan into the design and construction of the development;
4. Effectively incorporates community feedback into the design;
5. Strongly encourages the use of commercially reasonable efforts to achieve inclusion of minority-owned and female-owned business enterprises in the construction of the development, as well as the use of commercially reasonable efforts to ensure that laborers and mechanics employed on the project shall be paid at a prevailing wage rate to an extent reasonably practicable at an acceptable aggregate level to be negotiated;
6. Developer shall use commercially reasonable efforts to achieve the goal of local worker participation by having a majority of workers participating in the construction of this project being residents of Northeast Ohio;
7. Strives to achieve LEED or similar / comparable rating system certification and, at a minimum, implements sustainability best practices; and
8. The City strongly desires to pursue, and will likely require, the redevelopment of these neighborhoods with new owner-occupied single-family detached dwelling unit infill housing development, subject to the conditions negotiated in a final project development agreement.

C. USES

The City welcomes and encourages highly creative ideas and approaches from the development team regarding the redevelopment of these streets and neighborhoods. The City believes this is an excellent opportunity to create an amenity-filled redevelopment area that will add to the unique character of these neighborhoods and the City.

D. SURROUNDING AREA

Cleveland Heights is a diverse, progressive, inner-ring suburb of Cleveland, Ohio, with approximately 46,000 residents. The City's homes have architectural styles ranging from Craftsman bungalows and front porch Colonial Revival homes to historic mansions, new townhouses and condominiums. The City has a thriving arts community that includes galleries, theatre and dance companies, and Cain Park, a municipally owned arts and entertainment complex. The City is home to eleven (11) commercial districts and over 500 small businesses.

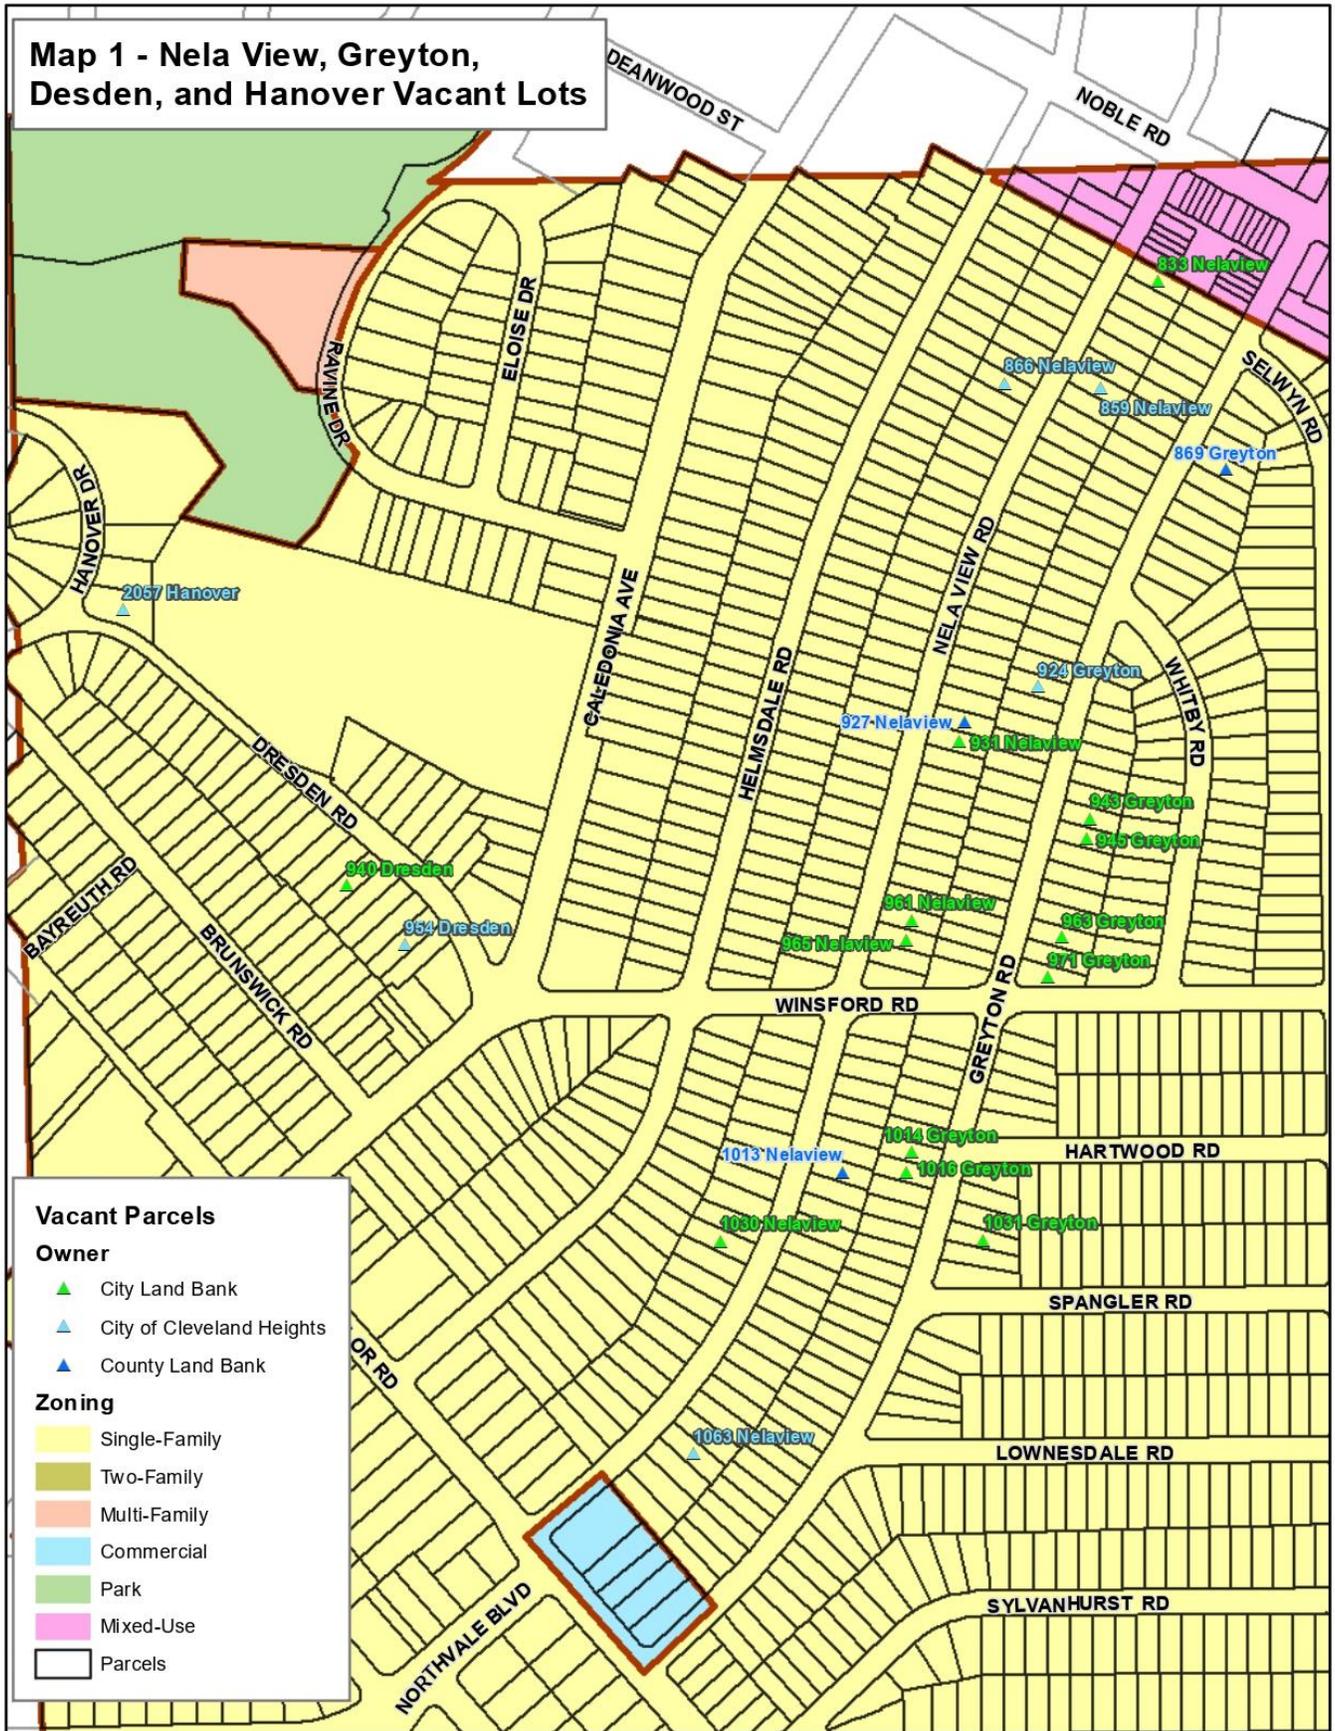

The streets and neighborhoods within this project are located less than three miles from University Circle, a world class center of education, medical, arts and cultural institutions including the Cleveland Clinic, Case Western Reserve University, University Hospitals Case Medical Center, the world-renowned Cleveland Orchestra, the Cleveland Museum of Art, and many more institutions and employers.

B. ADDITIONAL INFORMATION

Links to additional information about this project can be found in the **Additional Resources** section at the end of this document. A summary of the additional information that is available follows.

City of Cleveland Heights Master Plan – Land Use Plan:

The Future Land Use Plan illustrated in the City’s Master Plan, calls for the **Nelaview, Greyton, Dresden and Hanover neighborhoods** to be developed with detached single-family land uses (separated single-family residential uses). The Future Land Use Plan illustrated in the City’s Master Plan, calls for the **Desota neighborhood** to be developed with detached, attached, or two-family development; single-family residential uses, two-family homes or townhouses would be appropriate redevelopment in this neighborhood.

Zoning:

The **Nelaview, Greyton, Dresden and Hanover neighborhoods** are currently zoned “A – Single Family District”, as outlined in Chapter 1121 of the City of Cleveland Heights zoning code. The “A” District has been established to provide for single-family residential uses on smaller lots having a minimum of 7,500 square feet. The **Desota neighborhood** is currently zoned “B – Two Family District”, as outlined in Chapter 1121 of the City of Cleveland Heights zoning code. The “B” District has been established to provide for single-family residential uses on lots having a minimum of 7,500 square feet, and two-family residential uses with a minimum lot size of 10,000 square feet.

The City strongly desires to pursue, and will likely require, the redevelopment of these neighborhoods with new owner-occupied single-family detached dwelling unit infill housing development, subject to the conditions negotiated in a final project development agreement.

Incentives:

The **Nelaview, Greyton, Dresden, Hanover and Desota neighborhoods** are currently located within an existing tax abatement incentive area, which is the City-wide Community Reinvestment Area (CRA), known as the “Cleveland Heights Grow Program”. This incentive allows for an exemption from property taxes on the increased value created by new construction or remodeling of residential or commercial improvements. For new single-family residential building construction of owner-occupied dwelling units, attaining sustainability requirement certification and located in these neighborhoods, tax abatement levels with a term of 15 years and a rate of 100% is available.

In the **Desota neighborhood**, for new two-family residential building construction of dwelling units, attaining sustainability requirement certification, tax abatement levels with a

term of 15 years and a rate of 100% is available. For construction of new residential fee simple, owner-occupied townhome or condominium structures, attaining sustainability requirement certification, and a minimum per unit investment of \$270,000, tax abatement levels with a term of 15 years and a rate of 100% is available.

Additional information on the City's CRA program can be found on the City website at <https://www.clevelandheights.com/1075/Community-Reinvestment-Area-CRA>.

In the past, the City has also provided the opportunity for Tax Increment Financing (TIF), most recently with the Top of the Hill Redevelopment project, to assist City-owned land redevelopment projects. The City recognizes that Tax Increment Financing may be necessary to finance the construction of project improvements, and that this tool has the ability to provide strong and significant school compensation opportunities for our school district partners.
